**Entech Makes Greater Reading Chamber Alliance's (GRCA's) Top 50
List of Fastest Growing Companies**

Reading, PA - Entech Engineering, Inc. (Entech) was recently named to the Greater Reading Chamber Alliance's Top 50 Business list for 2020. Awards were announced at "The Virtual Dinner" on September 17. Entech was pleased to place at #14.

Companies, who are members of the Chamber, are chosen for consideration based on growth in revenue and size. These businesses are recognized for creating jobs and helping to grow the economy of the greater Reading area.

Entech has consistently appeared on the list for many years.

On the news of this year's award, Entech President Jeff Euclide, PE commented,

> *"We are again honored to be recognized as a GRCA Top 50 business. Our growth and success is the direct result of our entire team's commitment to helping our clients make more informed decisions and living our core values."*

Nominees are evaluated using a proprietary formula that takes into consideration both dollar and percentage increases in revenue, leveling the playing field for smaller companies. This is the 15th year of recognizing and celebrating local business through the GRCA Business Awards. Each business on the list is vetted by an outside independent accounting firm. The ranking method analyses growth over a three-year period, with the greater weight placed on the most recent year.
