## Senior Wastewater Project Manager Joins Entech

Reading, PA - Entech Engineering, Inc. (Entech) is excited to announce the recent addition of Michael, Sassaman, LO to our team as a Senior Wastewater Project Manager. Michael is a licensed wastewater operator in Pennsylvania, and brings over 45 years of wastewater treatment and operations experience to the table. Throughout his career, Michael has been involved in every fathomable aspect of wastewater treatment, collection, permitting, and design.

Michael has also been involved in Pennsylvania Water Environment Association (PWEA) and Eastern Pennsylvania Water Pollution Control Operators Association (EPWPCOA), and has served as past president for both of those organizations.

Entech's Vice President and Civil/Environmental Resources Manager, Robert Weir, PE, said about Michael's addition:

*"We're incredibly fortunate to be onboarding someone with Mike's extensive experience to further bolster our expertise and perspectives in wastewater engineering. There's not much he hasn't seen or been through, in this field, and that experience will help our clients make better decisions as they continue to face new challenges."*

Michael spent the majority of his career working with municipal wastewater clients at Arro Consulting, Inc. His notable areas of wastewater collection and treatment systems expertise include: operations and engineering consulting, start-up training, inflow & infiltration remediation, permitting and reporting, budget, fee, and rate calculations and planning.
