Entech Welcomes Karl Leitner, PE

Reading, PA - Entech Engineering, Inc (Entech) is pleased to announce the recent hiring of Karl Leitner, PE. He joins our team as a Project Manager, serving as the Team Leader for stormwater services.

Karl brings 12 years of experience in Land Development and Stormwater Management. He is experienced with municipal MS4 engineering, campus planning, phased development, stream restorations and providing consulting for potential development. His addition is a pivotal step in expanding our stormwater management services, allowing us to better serve existing and future clients.

On Karl's hiring, Bryon Killian, P.E., Executive Vice President, commented:

"We are excited to welcome Karl to Entech. His addition to our team elevates and expands our stormwater management capabilities, providing crucial expertise to our clients and surrounding communities.

About Karl:

Karl is a graduate of The Pennsylvania State University with a bachelor's degree in civil engineering. Karl and his wife, Kiersten, have a wonderful 18-month-old daughter. He also enjoys hunting, golf, woodworking and gardening.
